Dignity<sup>®</sup>  
MEMORIAL

∞ LIFE WELL CELEBRATED<sup>®</sup> ∞

*Each of us is unique with our own story to tell.*

When choosing cremation, there are many beautiful  
and meaningful ways to celebrate a special life.  
From a simple piece of jewelry to commemorative  
artwork, every remembrance can be personalized  
to reflect the life it represents.

# *Gathering to honor*

## **A SPECIAL LIFE**

A memorial service gives family and friends the opportunity to say good-bye and find comfort in sharing their loss with others. A service or visitation can be held with or without the urn present and can be as customized as you wish, including memorable touches such as music, readings, mementos or other forms of personalization.

Think about the life represented and how to best reflect it. Your Dignity Memorial® professionals can help you create a distinctive event that is truly the celebration of a lifetime.

## *Lasting* REMEMBRANCE

Selecting a place of permanent remembrance is one of the most important things you can do to celebrate the memory of a special life. It not only gives family and friends a place to reflect and pay tribute, but can also create an enduring legacy for future generations.

Permanent memorials can include:

- Family estates
- Garden niches
- Indoor and outdoor columbaria
- Cremation benches and pedestals
- Companion memorials
- In-ground burial
- Custom memorials to reflect life's passions and meaning

*Celebrating each life like no other.*

TSA RECOMMENDED

**Please note that because of the unique nature of each urn's material, variations in color and size may occur.**

Engraving options will vary depending on the size of the urn or keepsake.

### TSA's Transportation of the Deceased

The TSA recommends that consumers purchase a wood, plastic or non-lead lined ceramic container for transporting their loved one's remains, as these materials generally successfully pass through the TSA's security screening. However, please be aware that some airlines do not allow cremated remains as checked baggage, so please check with your air carrier before attempting to transport a cremation container in checked baggage.

All states allow for scattering, but scattering on a private property requires the property owner's permission.

A permit is required for state parks, and ocean dispersal must be done at least three miles from shore.

Consult your local authorities for scattering regulations in your state, as additional requirements and restrictions may apply.

#### NOTE: HEALTH & SAFETY CODE

California Health & Safety Code 7117 (a) states, "Cremated remains may be taken by boat from any harbor in this state, or by air, and scattered at sea. Cremated remains shall be removed from the container before the remains are scattered at sea."
