Our professional funeral directors will make a recommendation based on the condition of the body and expected service needs.

Other Care and Preparation

Requires facilities for preparation/embalming/shelter. These services are performed to provide a dignified and respectful preparation for handling the deceased prior to the identification and transfer to the final disposition. These services would be performed in most situations following a death. They would include but not be limited to when there is a request for dressing the deceased, communicable illness may be involved, trauma or an autopsy has occurred, or removal of pacemaker or radioactive implant before cremation is required. There is no charge for the removal of pacemakers and radioactive implants.
