GENERAL PRICE LIST

These prices are effective as of December 1, 2023.

Applicable taxes are additional.

The services explained below are those we can provide to the families that we serve. You may choose only those items you desire. There are many factors in determining a fair charge for services. The following components are taken into consideration but not limited to, when fees are established: Facilities, Staff, Equipment, Automobiles, Utilities, and Insurance, Taxes, Office Supplies, Licensing Fees, Building and Property Maintenance.

The following three sections explain the component parts of the Service Offerings.

PROFESSIONAL STAFF & SERVICES

Coordinating activities, rites, ceremonies

Professional consultation with licensed personnel, including, but not limited to, expert advice on options to meet your needs. Coordination of all activities, rites and ceremonies, before, during and after they have been provided, including services and supplies provided by us, as well as those provided by third-party suppliers, such as flowers and death notices. Personnel are available 24 hours a day, 365 days a year to respond to the initial call.

Completion and filing of all documents necessary to carry out the services and supplies requested, including, but not limited to, death registration, burial permit, coroner's certificate for cremation and documentation necessary to ship the body out of the country. Provision of Proofs of Death issued by our location (our Proofs of Death are usually accepted for most estate settlement purposes, but sometimes a provincial "Death Certificate" will be necessary and is available from the Office of the Registrar General).

Embalming of Remains \$625

This fee is in addition to basic preparation. Embalming is the process of replacing blood and bodily fluids with chemical preservatives. It is a process of sanitation, restoration and temporary preservation. Autopsy embalming and restorative practices are included in this fee. Embalming is not legally required, but may be recommended to preserve the body between the time of death and the visitation or disposition of the deceased. Our professional funeral directors will make a recommendation based on the condition of the body and expected service needs.

Other Care and Preparation

Requires facilities for preparation/embalming/shelter. The bathing and topical disinfection of the deceased that is performed does not include embalming. These services are performed to provide a dignified and respectful preparation for handling the deceased prior to the identification and transfer to the final disposition. These services would be performed in most situations following a death. They would include but not be limited to when there is a request for dressing the deceased, communicable illness may be involved, trauma or an autopsy has occurred, or removal of pacemaker or radioactive implant before cremation is required. There is no charge for the removal of pacemakers and radioactive implants.
